

ANKIT KUSHWAH

Full-Stack Developer | Python | Django | React.js | REST APIs | PostgreSQL

Indore, Madhya Pradesh, India | +91 9131670458 | ankitkushwah0210k@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer skilled in Python, Django, Django REST Framework, React.js, Next.js, PostgreSQL, and Tailwind CSS. Experienced in building RESTful APIs, RBAC-based platforms, JWT authentication systems, ERP applications, and school management systems. Strong in backend development, database integration, responsive UI design, Git version control, API testing with Postman, and deployment using Vercel and Render.

TECHNICAL SKILLS

Programming Languages Python, JavaScript, C, C++, SQL

Frontend HTML5, CSS3, React.js, Next.js, Tailwind CSS, Responsive Web Design, UI/UX Implementation

Backend Django, Django REST Framework, RESTful APIs, JWT Authentication, Authorization, RBAC, CRUD Operations

Databases & CMS PostgreSQL, MySQL, SQLite, Sanity CMS, Database Integration, Data Modeling

Tools & Platforms Git, GitHub, VS Code, Postman, Vercel, Render

Core Competencies Full-Stack Web Development, Backend Development, API Integration, Django ORM, MVT Architecture

EXPERIENCE

Full Stack and Python Developer Intern - Eagle In Cloud | Jan 2026 - Apr 2026

Tech Stack: Python, Django, Django REST Framework, React.js, Next.js, PostgreSQL, SQLite, HTML5, CSS3, Tailwind CSS, Git, GitHub

- Developed and deployed 4+ full-stack web applications focused on role-based user management, workflow automation, and responsive web experiences.
- Built a Django-based Tally ERP System with RBAC, accounting modules, user management, PostgreSQL integration, and financial record management features.
- Developed a School Management System with secure login, authentication, authorization, REST APIs, student record management, and multi-level access control.
- Redesigned the Eagle In Cloud website using React.js and Tailwind CSS, improving navigation flow, accessibility, responsiveness, and cross-device user experience.

PROJECTS

The Virtual Canvas

Tech Stack: Next.js, Tailwind CSS, Sanity CMS

- Developed a full-stack RBAC-based web application with secure authentication, authorization, dynamic dashboards, CMS-driven content management, and responsive UI design.
